

Knox County Commission
City-County Building
Knoxville TN 37902

We have concluded that Mayor Ragsdale is seriously derelict in his duties to the County, exacerbated by many documented and rumored (but undenied) insults. We also conclude that our very existence as a viable community is threatened by past and pending results of his ineptitude, and that fiscal bankruptcy may be imminent. It seems evident that no official body is willing to take strong, meaningful action. We have reluctantly decided to initiate this formal request to Knox County Commission to force his resignation. After long consideration, we sincerely believe that he is at the core of major problems, financial and otherwise, that cannot be resolved by him or his processes.
